

7-00134,

I believe that Kentucky American Water's proposed solution on the Kentucky River to Newtown Pike in Fayette is the best solution to the water needs of Central Kentucky. I believe that a private for-profit company should not be responsible for the destruction of my property or my neighbor's property.

I believe that Central Kentucky deserve a long-term solution to the water needs of the region. The utilization of a larger water body, such as the Ohio River, and the existing utility corridors makes the most sense economically, environmentally, and aesthetically.
